

### INDEX OVERVIEW

The BlueStar Fintech Index provides investors with an investable index of leading global companies involved in technological innovation impacting a range of industries related to the financial sector. The index includes companies involved in the following fields: Mobile payments; payment processing and point-of-sale technologies; banking and credit card software; enterprise transaction and accounting technologies; cryptocurrency and blockchain technology; and securities trading, automated investing services and wealth management technologies. BFNQ is calculated and maintained by Standard & Poor's based on a methodology developed by BlueStar Indexes and overseen by the BlueStar Index Advisory Committee. The index uses an equal-weighting methodology. Index components are reviewed semi-annually for eligibility, and the weights are reset accordingly.
