

### INDEX OVERVIEW

The BlueStar Israel Global Technology Index™ provides a benchmark for investors to track Israeli and Israel-linked technology companies trading worldwide. The index is constructed using BlueStar Indexes' unique methodology and proprietary database of Israeli and Israel-linked companies. BIGITech™ is a modified market capitalization weighted index, capping the top-weighted constituents at 10%. It includes the largest and most liquid technology companies, as well as mid and small cap companies that display sufficient liquidity for global investors. The methodology allows for the inclusion of Israeli companies listed on the Tel Aviv Stock Exchange and other major exchanges such as the London Stock Exchange, New York Stock Exchange, and NASDAQ. Furthermore the methodology provides for the inclusion of companies that develop, manufacture, and/or deliver innovative technologies in a wide range of tech sectors, including Bio-Tech, Agriculture-Tech, Defense-Tech, Clean-Tech as well as Info-tech.

#### Top Ten Index Constituents

Company	Index Weight (%)
Check Point Software Tech	8.15
Nice Ltd	7.38
Amdocs Ltd	7.30
