

INDEX OVERVIEW

The BlueStar IoT Index provides diversified exposure to global companies involved in the Internet of Things in the following capacities: building intelligence into devices, connectivity of devices, and management of big data and network capacity. The index is calculated and distributed by Solactive AG based on a methodology developed by BlueStar Indexes and overseen by the BlueStar Index Advisory Committee. The Index uses a tiered-equal weighting strategy whereby companies contributing to fields more central to the IoT ecosystem receive higher weights. Index components are reviewed semi-annually in June and December for eligibility, and the weights are reset accordingly.

Top Ten Index Constituents

Company	Index Weight %
Forescout Technologies Inc	2.59
Xilinx Inc	2.45
Ams Ag	2.44
Dsp Group Inc	2.35
Nvidia Corp	2.35
Stmicroelectronics Nv	2.35
Qorvo Inc	2.33
Skyworks Solutions Inc	2.33
Universal Electronics Inc	2.32
Analog Devices Inc	2.28
Total	23.79

GICS Industry Exposure

Industry	Weight %
